

Tying a Bow Tie

1. Cross right end over left end, looping right end under and up so it rests on right shoulder.

2. Form shape of bow by folding left end horizontally, centered below chin.

3. Hold this fold with left hand while dropping right end down over front. Use left thumb to hold a space behind bow.

4. Pinch center of widest part of hanging end between right index finger and thumb. Push finger back and upwards.

5. Poke resulting loop through space being held with left thumb, creating a knot behind bow. Even ends and tighten.

Tying a Bow Tie

1. Cross right end over left end, looping right end under and up so it rests on right shoulder.

2. Form shape of bow by folding left end horizontally, centered below chin.

3. Hold this fold with left hand while dropping right end down over front. Use left thumb to hold a space behind bow.

4. Place right index finger in center of widest part of hanging end. Pass this new fold up and behind by pushing finger back and upwards.

5. Poke resulting loop through space being held with thumb, creating a knot behind bow. Even ends and tighten.
