Blueprint
TEMPLATE

ULTRASUEDE HEADBAND

SUPPLIES:
1/8 yard of fabric
Marking pen
Button
Needle and thread

INSTRUCTIONS:
1. Enlarge this pattern to 200 percent and then to 150 percent. Pin in place on a single layer of the fabric; trace around it with the marking pen. "These curves require a little more cutting precision than the sash—that's why you want to trace it," Katie says.

2. Cut along the line. Wrap the band around your head, centered, to find the center back on one end; sew a button there.

3. Wrap band around your head again, and pinch the plain end over the button. In that spot, cut a small slit, then snip it incrementally larger just until you can slip the button through.
