TWO MORE EASY WAYS TO DECORATE WITH GARLAND!

TABLE RUNNER: Fluff a garland and arrange it down the center of your table. Plug in to light.

WINDOW/MIRROR SWAG: Using wall hooks or nails, drape a fluffed garland, embellished with ornaments, over a window or mirror.

STEP 1

Stuff about half to two-thirds of the garland into the outdoor planter, with the plug end out. Wind the remaining end of garland into a circle that sits on top of the planter.

STEP 2

Straighten and fluff the garland branches, then place the kissing ball on top.

STEP 3

Attach heavy-gauge wire to some ornaments by looping long pieces through the hangers and twisting to secure. Poke the ornaments firmly into the garland to accent.

STEP 4

Add optional sprigs of live greenery to make the arrangement fuller. Plug in garland to light.
