For the pullover vest: Use the diagram below as a reference. Print templates on following pages onto card stock. Cut out and tape together where pieces align. Place on folded fabric and trace, extending length of vest to make it as long as desired. Cut out fabric.

For open-sided vest: Print template onto card stock and cut out. Cut a piece of fabric as wide as you want the vest to be and twice as long as you want it to be (our fabric was 13" by 49"). Fold in half widthwise. Place template on fold; trace around it and cut along line for neck opening.
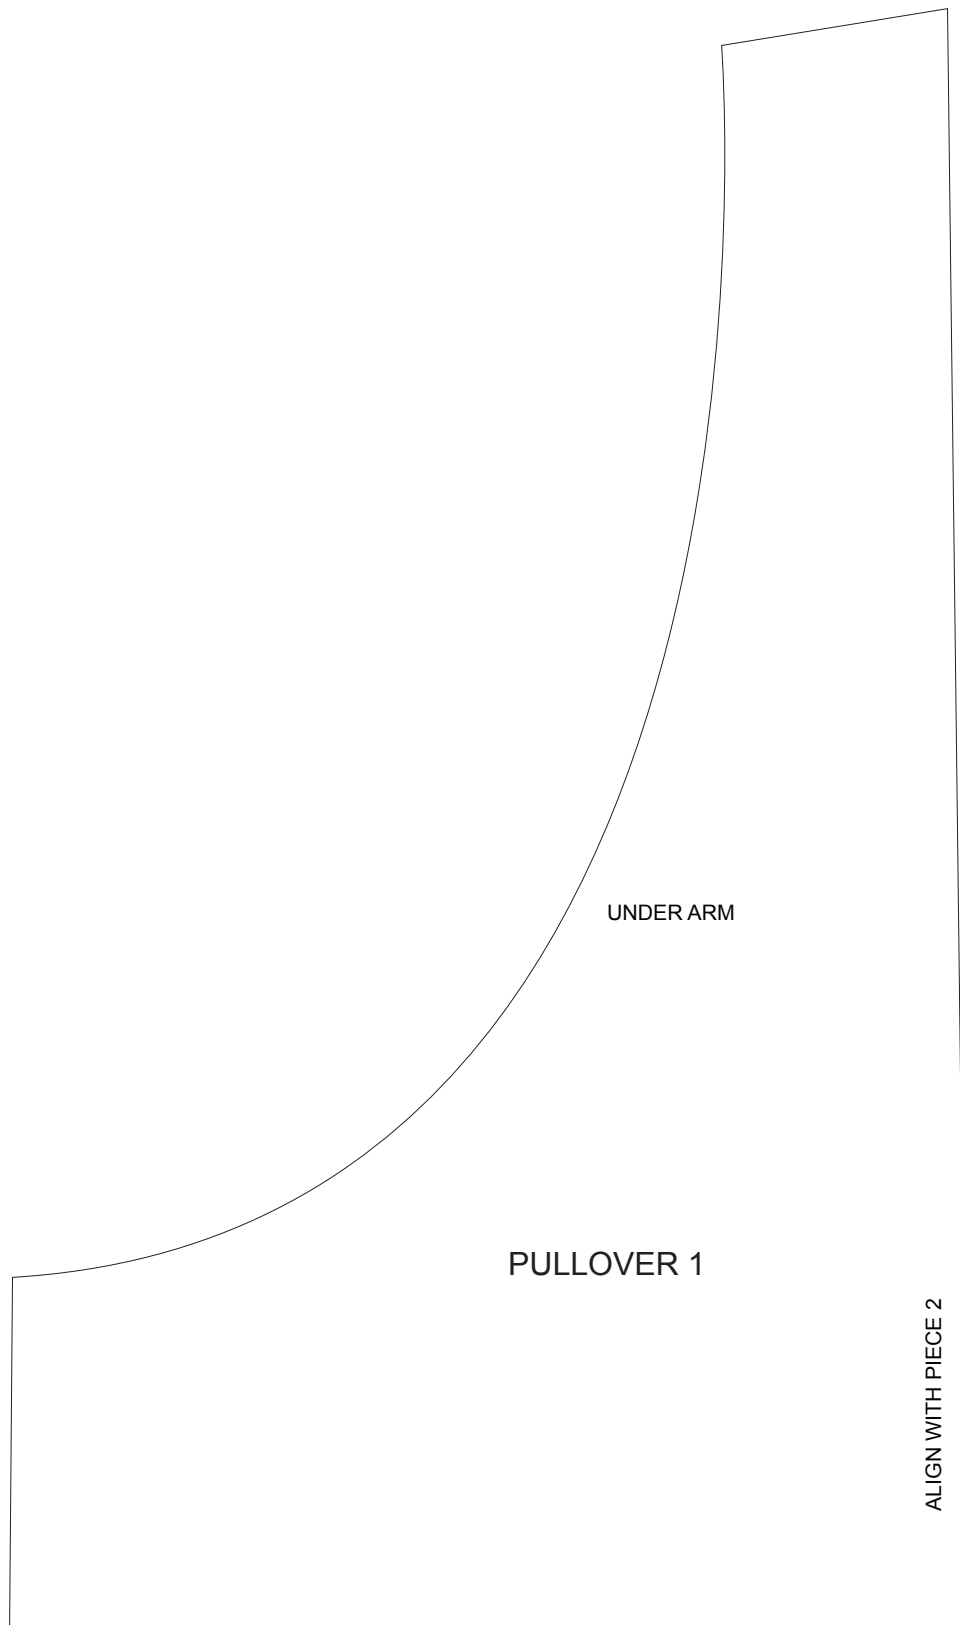

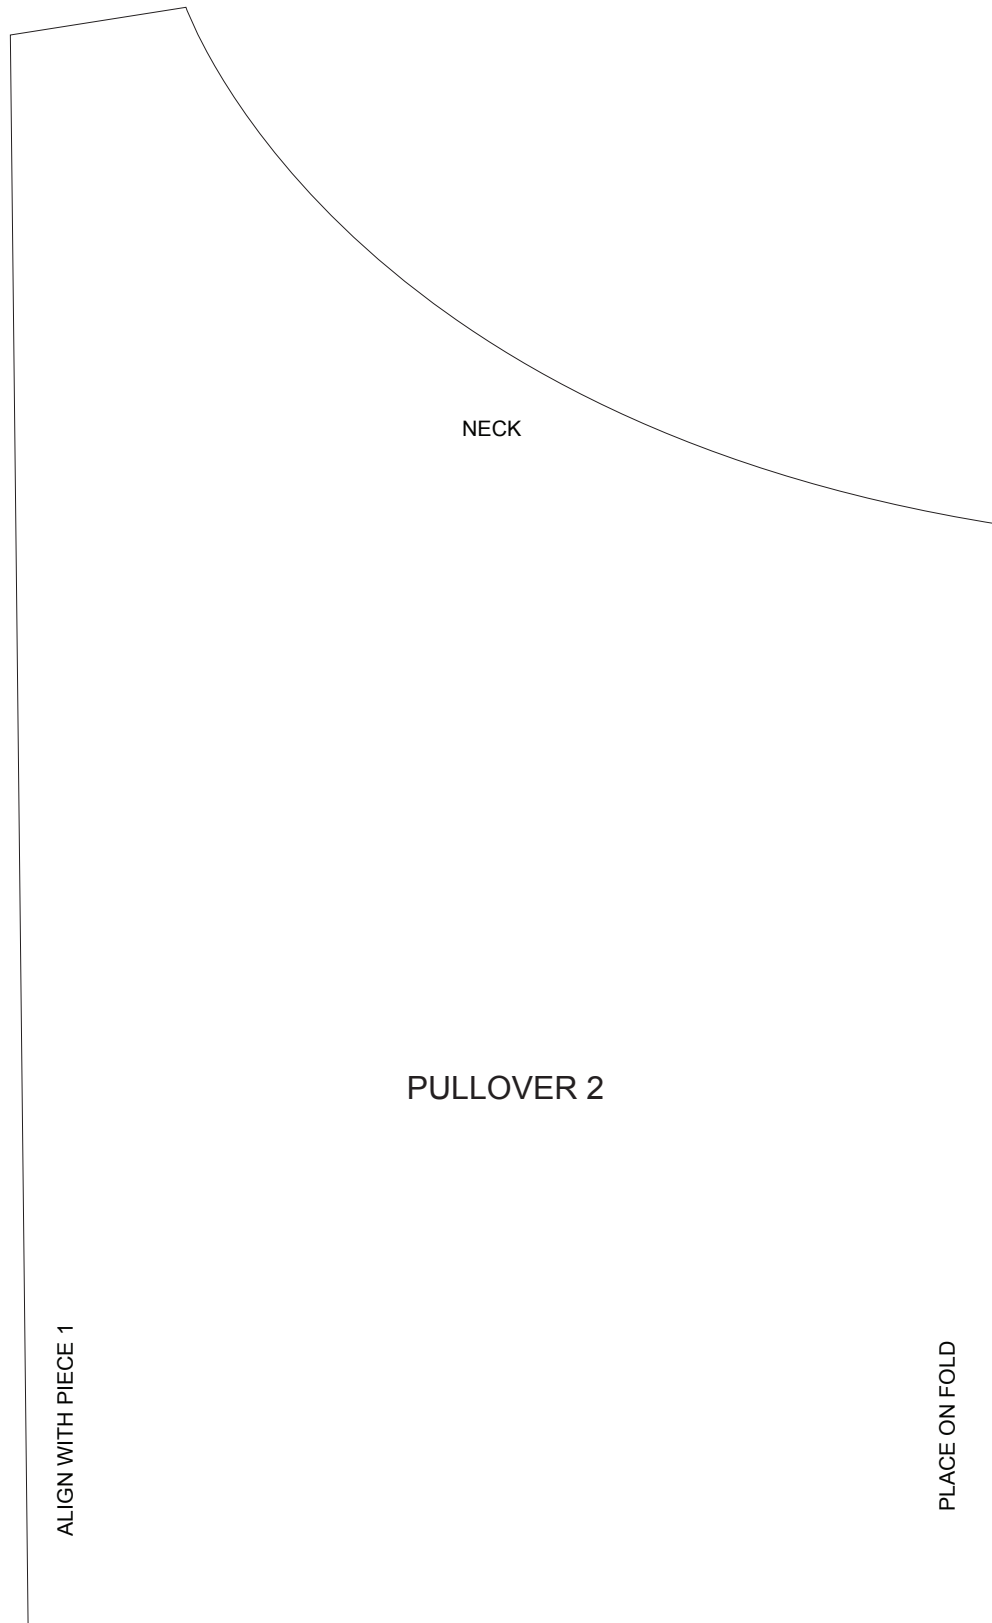

PULLOVER VEST

OPEN-SIDED VEST
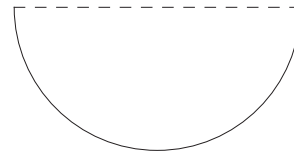

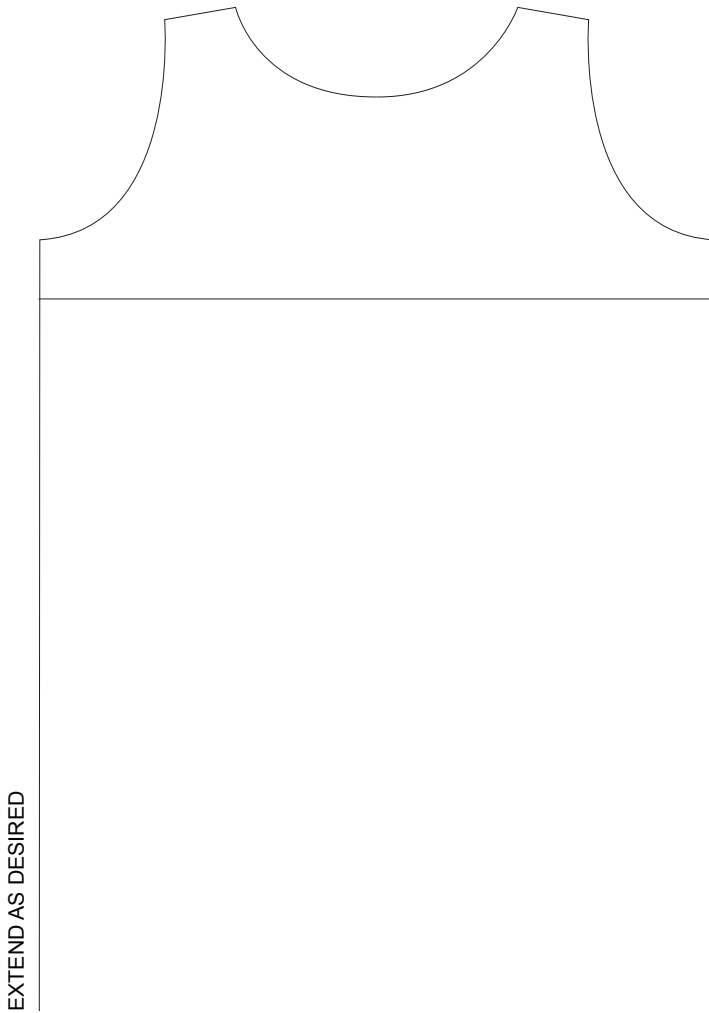

EXTEND AS DESIRED
