

Steps for assembly (part 2):

6. Glue tabs at the base of the body piece onto the grey areas on the card marked "glue body tab here."

7. Glue shoulder tabs onto the grey areas on the card marked "glue shoulder here."

8. Glue legs onto the grey areas marked "glue leg here."

9. For a decorated reindeer, cut the ornament pieces from different colored papers. Fold each piece along the score line and sandwich string or thread between the halves and secure with a dab of glue.

10. Use a small hole punch on the tips of the antlers to attach the string or just tie them directly to the antlers.

11. Fold and insert into a 5G-by-7G-inch envelope.
