

# Template: "Checks, Please": Baby Doll

---

from *Martha Stewart Living* | [www.marthastewart.com](http://www.marthastewart.com)

Print this template at 100 percent, and cut out. Pin to 2 layers of fabric, and cut out.

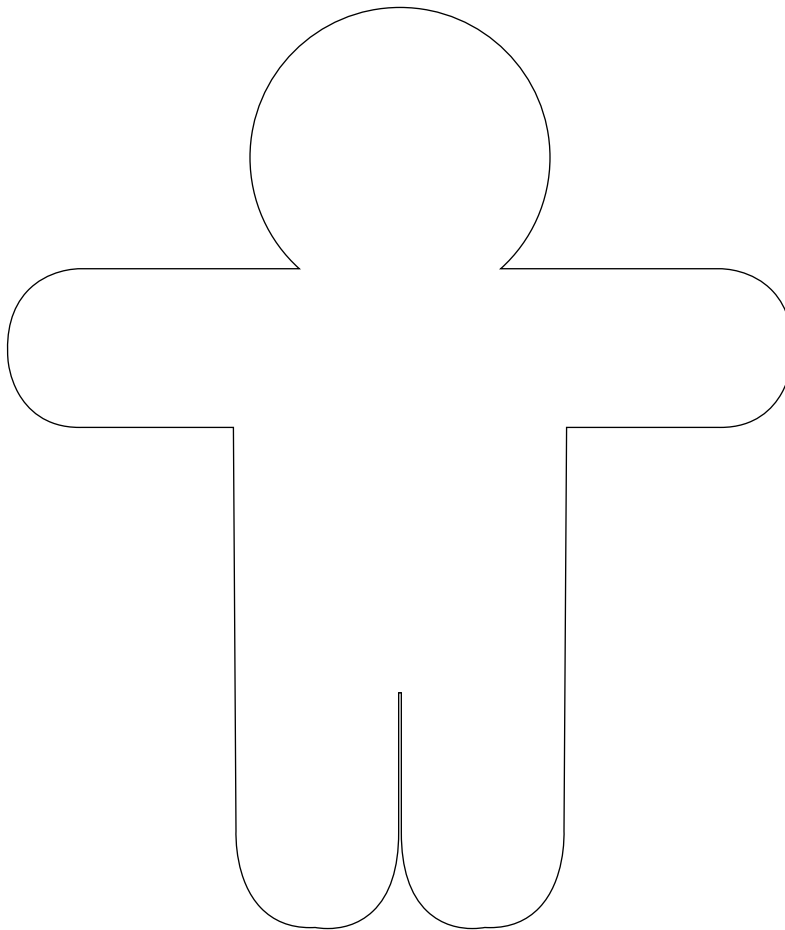

## Template: "Checks, Please": Boy Doll

---

from *Martha Stewart Living* | [www.marthastewart.com](http://www.marthastewart.com)

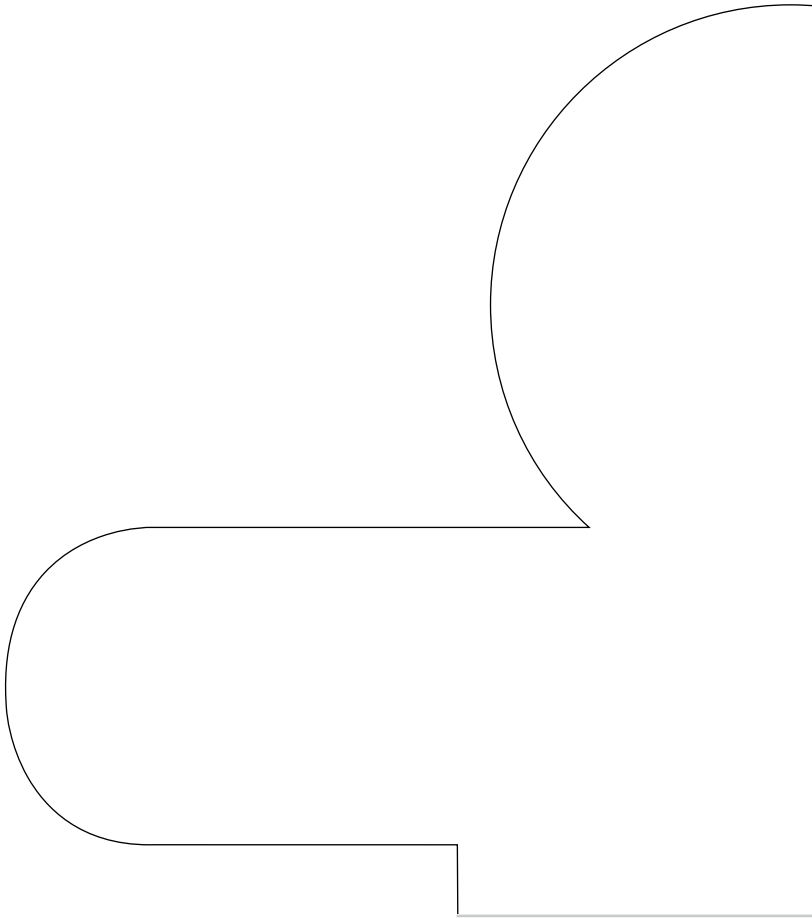

This page serves as a reference for what your templates will look like once they're taped together. Print the following 3 templates at 100 percent, cut them out, and tape them together, overlapping edges by  $\frac{1}{8}$  inch. Pin to 2 layers of fabric, and cut out. Alternatively, print this page, photocopy it at 200 percent, and cut out; then pin it to 2 layers of fabric, and cut out.

# Diagram: "Checks, Please": Smocked Curtain

from *Martha Stewart Living* | [www.marthastewart.com](http://www.marthastewart.com)

Print, and follow the instructions on page 189 of *Martha Stewart Living's* October 2011 issue.

## How-To: “Checks, Please”: Trivet

from *Martha Stewart Living* | [www.marthastewart.com](http://www.marthastewart.com)

### Gingham Trivet

*Tiles in three colors mimic the look of woven cloth.*

#### Wood glue

2 pieces of 1½-by-½-inch hardwood, such as poplar, miter-cut to be 8¾ inches on one side and 9¾ inches on the other

2 pieces of 1½-by-½-inch hardwood, such as poplar, miter-cut to be 14½ inches on one side and 15½ inches on the other

1 piece of ¾-inch plywood, cut 8¾ by 14½ inches

Hammer

Brads

Primer

Paintbrush

Thinset mortar

Tile trowel (tiles' packaging will specify what size is required)

Two 2¾-by-2¾-inch white tiles

Seven 2¾-by-2¾-inch light-gray tiles

Six 2¾-by-2¾-inch dark-gray tiles

1 package ⅛-inch spacers (if necessary)

Grout float

Grout

Grout sponge

Painters' tape

Paint

1. Squeeze a bead of glue along the short edges of the hardwood pieces that will abut the plywood. (Be sure to place glue on miter cuts.) Press edges along outside of perimeter of plywood, making certain miter cuts align. Hammer brads through hardwood into plywood. Wipe away any excess glue. Let glue dry.

2. Prime the frame. Let dry.

3. Spread thinset onto surface of plywood with a notched trowel, and start setting tiles. (Use spacers if needed.) Let thinset dry overnight.

4. With grout float, spread grout over tiles, making sure to get grout between tiles. (Remove spacers if they've been used.)

5. Wipe away excess grout with a damp sponge, and let dry for 1 hour.

6. Paint frame: Use painters' tape on tiles to protect them while you paint. Cover perimeter of tiles with tape, and paint the hardwood. Let dry.
