

Clip Art: "Fine Specimens" Wings Aflutter Large Perched Red Butterfly

from *Martha Stewart Living* | www.marthastewart.com

How-to:

Each wing will fit on an 11-by-17-inch piece of paper. If you cannot print this at home, take the file to a copy center.

1. Print clip art. Cut out roughly around the wings, but cut precisely around the body on one piece, and where the wing meets the body on the other piece. Mount the 2 pieces onto black heavyweight printer paper using spray adhesive.
2. Stack both pieces face-up; the larger piece (with the butterfly body) should be on top. Using a hot-glue gun, adhere the 2 together at base of wings, where indicated by dotted line. Let dry.
3. Perch butterfly on furniture or other ledges using masking tape or adhesive hooks (such as Command hooks).
